Rebirth

Franco

Freedom lies when you're one with the ocean
Blue's the sky and waters tide is high
Well who's high too

Miracles do happen
What's better than today
And I'm glidin' through the wind my day begins
I'm reaping

And I'm greeted by the sun
And my sky and earth are one
And I'm living for today
Rebirth

Welcome to the tidings of the open
Realize the writings of the times
It's calling you

Miracles do happen
What's better than today
And I'm glidin' through the wind my day begins
I'm reaping

And I'm greeted by the sun
And my sky and earth are one
And I'm living for today
Rebirth

Glidin' through the high times
But I'm living for today

And I'm greeted by the sun
And my sky and earth are one
And I'm living for today
Rebirth
