

Renewal

Franco

Love is life when you're with me
Life is love when we are free
Dry your eyes and let me hold you
Let the rest fall into place
You're the reason for my being
So let me hold you
Love and caress you
With the same love as before
Higher love
I can't get enough
Your eyes align the skies
Your something so mystical
Love be mine
So direct and spread your love and let it out
So the rest will figure out
Love is factual
Love is meant for all
Hope it hits you all
Stay intact
Give, give your true love and affection
Seal all the hurt and complications
Give all the love that we can give
Wishing you love no goodbyes
So give all the love that we can give
