Should I do cruelty
To humankind
And treat like you and we
Shades of different kind
This is the same situation
For many years now
So much political pollution
Them treat us this way
And it goes on and on and on
And it goes on and on and on
Let's all step into Jah light
Divided we define our weakness
So unite and say hello to Jah promise land
Wake up, my people wake up
Set us free
But to wish is free
This goes to mr. politician
Who dirties our lands
Same goes to mrs. Politician
Who treats us their ways
And they go on and on and on
And it goes on and on and on
Let's all step into Jah light
Divided we define our weakness
So unite and say hello to Jah promise land
Wake up, my people wake up
And as one people we'll survive
We movin' and dancin' to jah moonlight
We suffer long but we grow strong
We movin' and a dancin'
This freedom we're romancing
To become as one (To become as one)
Non violent
To become as one
Let's all step into Jah light
Divided we define our weakness
So unite and say hello to Jah promise land
Wake up, my people wake up
Open your eyes
Open your ears and overstand
Dem Babylonian politician
Soil this land
Dem take away and rob us
Blind of yours and mine
Our money money, dem money hungry
Dem take it all, dem take it all
We suffer long but dem a
Dem take it all
We pay our taxex but dem a
Dem keep it all
Dem Babylonian politicians keep it all
Dem take it all, dem keep it all
We suffer long but we grow strong
So we move on
