

## Just Call and I'll Be There

Françoise Hardy

If things you've planned don't work out so good  
Just call and I'll be there  
Although you've chosen her and not me, just call and I'll be there

I'll come running as fast as I can  
If this cruel world ain't treating you right, just call and I'll be there

If you should need me forget your pride, just call and I'll be there  
Don't go on just hurting inside, just call and I'll be there

I'll be waiting just hoping you'll call my name  
Even if you just need a friend, just call and I'll be there  
I'll be waiting just hoping you'll call my name  
Even if you just need a friend, just call and I'll be there
