

## Every Time I Go Around Here

Frank Black

Every time I go around here  
I see tumbles  
Gone is the Regal automobile  
And ever since I'm down, I'm down  
We used to ride in it  
In this frozen town  
Any time we had, in the time we had  
We found, we found  
In some frozen place  
Parked half off the ground  
Every time I go around here  
I see tumbles through my head  
And the glass cleared  
And the motor rumbled  
I don't know if it's good  
That they did make the wheel  
But ever since I know, I know  
I've been rolling on  
Rolling on to you  
Any time we have, in the time we have  
We'll go, we go  
To that frozen place  
Frozen place that we knew  
Every time I go around here  
I see tumbles through my head  
And the glass cleared  
And the motor rumbled
