# Garbage Heap

**Frank Black**

On the garbage heap at the edge of the town
How the flames do leap casting shadows around
Have you seen my love? I know he is here
Falling from above for so many a year

I'll stay here with you
I'll lay here with you
We're gonna be here a long, long time

In the olive trees you showed things to me
You could not believe when I let you in me
Dancing in the night there in Jerusalem
Hiding from the light barely still one of them

I'll stay here with you
I'll lay here with you
We're gonna be here a long, long time

I'll stay here with you
I'll lay here with you
We're gonna be here a long time
