

I Think I'm Starting to Lose It

Frank Black

Everybody got something to say and they're coming
On strong like a smooth operator
Everybody got something to say but I'll be moving along
And I'll see you all later
Logos is on the perch
I got some Heaven in my head
Chaos is just a quirk
I got some Heaven in my head
Pathos is a starting to hurt
I got some heaven in my head
Mythos is a gumming the works
I got some heaven in my head
I think I'm starting to lose it
I think I'm starting to lose it
I think I'm starting to lose it
Chaos is on the perch
I got some heaven in my head
Pathos is a starting to hurt
I got some heaven in my head
Mythos is a gumming up the works
I got some heaven in my head
