

## Fever Dream

Frank Iero

I bask in silence  
Want you to notice  
Simple yet complex  
Ventricle taste test  
I'm on that side eye  
Black heart and tongue tied  
I'm old and loaded  
I want everything you fucking got

Find a way, we can find a way  
At least today we can be  
Most anything  
Float away, we can float away  
Far away from everything

Dust to dust and face to face  
I'm ashamed of what remains in me

You gotta bleed to make me believe  
Pain hides my scent  
I need a brand new shadow

When dust makes dust and our faces meet  
I disconnect from every string you tied to me

I bask in silence  
Want you to notice  
Simple yet complex  
Ventricle taste test  
I'm on that side eye  
Black heart and tongue tied  
I'm old and loaded  
I got it all and I still want more

I wanna bleed  
Make me believe  
I'll hide my scent  
I need a brand new shadow  
I need a brand new shadow
