

Give Me Liberty, But Give Me Depth

Frank Iero

They don't care because we don't care
I'm unimpressed with almost everything
I look my best in blood soaked everything
The less we live, the more we die
The more we see, the more (of us) go blind

(They don't care because we don't care)
They're full of shit when they tell you everything's okay
And fuck this because nothing's gonna be okay
It's such shit when they tell you everything's okay
Look around because nothing seems to be okay

No one gives a fuck about you when all you do is care about yourself

She wants a drug problem just because it looks cool
He sells his mouth on Hollywood boulevard
She wants a drug problem just because it looks cool
He sells his mouth on Hollywood boulevard
She wants a drug problem just because it looks cool
He sells his mouth on Hollywood boulevard

They feed your head while you feed your head...

This world we made will take it's toll
This world we made gonna make you sick
This world we made will infect your soul
and destroy everything that's good if you fucking let it
