

## Great Party

Frank Iero

Our hearts need work, I'm scared we're born to lose  
Tired of acting tough when I should've known better  
Our words get stuck so we taught ourselves to smile  
Yours shines so bright that it makes me shiver

Just when you thought it can't get worse, always it does  
Just when you thought it can't get worse, always it does

We ignored the signs, got lost for miles and miles  
Know what buttons to push with both middle fingers

I'm out of touch, your ticks are out of time  
Couldn't wait to get gone. Yea, you're a real go getter

Just when you thought it can't get worse, always it does  
Just when you thought I can't get worse, I'm off my meds  
I'm wondering is it me, is it me, that made you feel so sad?

I miss you so much  
I miss you sober  
I hope you don't mind  
I miss you so much  
I miss you sober  
I hope you don't mind  
I won't call  
Is it me, is it me, that brings you down?

My heart needs work, it does what it wants to do  
Keeps falling in love when I should've known better  
My words get stuck so I taught myself to smile  
So sick of us, and I hope I never get better
