

Remedy

Frank Iero

You can find me always
Getting lost in my head
You can tell me most anything
I promise I won't understand

It was a rarity that I felt emotions
Now they radiate down my extremities and it sets me on fire
It was a malady without a solution
You were my remedy
Yeah you ruined me

You can find me, always
Hanging on by a thread
You can confide in me about everything
I promise I'm not listening, yeah

It was a rarity that I sensed emotions
I feel them radiate
Gave me stomachaches, you set me on fire
It was a malady without a solution
But you were my remedy
Now you've ruined me

Because now I got so much love to lose
And now its never enough
Yeah, yeah, yeah

It's a rarity, I feel moved without motion
I felt it satiate my sincerity
Without misery thought I had nothing to offer
It was my way of carrying that weight

Until you came through, until you came through
Until you came through, until you came through
And made me believe, I was worth being saved
