

# Denim

Frank Ocean

A good pair of dark blues  
Hand washed by me, by you  
We care enough to  
Never let them drag, never let them tear

We've kept the tags on them so we could remember  
Exactly what it cost us to get here, to get this pair, (aah)  
To get here, to get this pair of ours

Got a love like denim (got a love like denim)  
Got a love like denim (got a love like denim)  
Got a love like denim (got a love like denim)  
Got a love like, got a love like that  
A love that lasts, a love that lasts  
A love that lasts, a love that we can wear  
Got a love like denim

Good jeans, with good care  
A lifetime of good fade and good wear  
And what we have here with this  
Is cut from the same cloth, cut from the same cloth

We've kept the tags on them so we could remember  
Exactly what it cost us to get here, to get this pair, (aah)  
To get here, to get this pair of ours

Got a love like denim (got a love like denim)  
Got a love like denim (got a love like denim)  
Got a love like denim (got a love like denim)  
Got a love like, got a love like that  
A love that lasts, a love that lasts  
A love that lasts, a love that we can wear  
Got a love like denim

Come on, put your hand in my back pocket, let's walk  
Out here, yeah  
And let the weather, weather us  
And never mind the sun  
And never mind the faded  
Cause we're strong and we look good in denim

Got a love like denim (got a love like denim)  
Got a love like denim (got a love like denim)  
Got a love like denim (got a love like denim)  
Got a love like, got a love like that  
A love that lasts, a love that lasts  
A love that lasts, a love that we can wear  
Got a love like denim
