

Know Better

Frank Ocean

Hey let me tell you something
Don't be frontin like he ever did it like I does it
Every time you wanna argue and stress
You always say you could've stayed with your ex

Well I guess you coulda

But deep inside I know that you don't wish you woulda
Cuz when you was with him
You was always checking for the kid
Late night coming to my crib

I, I know that you'll never find another nigga
With a swag like me
He ain't quite me, like me
I, I, I, I, I know you better
I know better
I know better
I know better
I know better
I know better
I know better
I know better
I, I, I, I, I know you better

So so so, tell, tell me, tell me something
You really think it'd be that easy just to let me go
I know I try to play it cool when we fuss
But truth be told, my heart would be crushed (Cuz it's just for you)
I'm tryin to settle down (Tell me who)
You know could make you smile (Like I can do)
Tell me who, tell me who

I, I know that you'll never find another nigga
With a swag like me
Like me, like me
I, I know that you'll never finda
I, I, I, I, I know you better
I know better
I know better
I know better
I know better
I know better
I know better
I know better
I, I, I, I, I know you better

So, so, so
Baby I know
That without you I'd be broken down
But you'd feel the same
If I went away
Why can't you just say it?
Just say it! Just say it!
Forget it baby, it's cool
Cuz I already know

I, I know that you'll never find another nigga
With a swag like me

He ain't quite me, like me
I, I, I, I, I know you better
I know better
I know better
I know better
I know better
I know better
I know better
I, I, I, I, I know you better

I, I know that you'll never find another nigga
With a swag like me
Like me, like me
I, I, I, I, I know you better
I know better
I know better
I know better
I know better
I know better
I know better
I know better
I, I, I, I, I know you better
