La da da da daaaa (Okay, cause it never felt like that)  
La da da da daaaa (Uh uh, it's like)  
Ohh (Every touch, every kiss, static baby)  
Ohhh (Hahah... yeah)

Baby, I don't really know which way to go  
It's like your energy keep callin'  
I, I'm bout to lose my self composure  
Even sex has got me braggin'  
And you, you look so good  
I wish you would give me what I'm looking for  
Touch is so electric  
Got my heart racing, pulse is off the charts  
And I can't even front, I'll be there 1 on 1  
And you're the one I want girl

You're like static  
The way you put it on me girl, it's like magic  
Got me feenin' for your touch like an addict, gotta have it  
Girl this thing feels so good, so I wish you would  
You're like static, static, static  
Girl you're like static, static, static  
Girl this thing feels so good, so I wish you would

And I ain't even playing girl  
There's so much truth in what I'm saying girl  
You got my head all in it, like a game of chess baby check mate  
This ain't no first date, don't hesitate, no  
And I'm a take it nice and slow, yeah.  
Take your body where it needs to go  
Give me what I'm looking for, touch is so electric  
Got my heart racing, pulse is off the charts  
And I can't even front, I need the 1 on 1  
You're the one I want, girl

You're like static  
The way you put it on me girl, it's like magic  
Got me feenin' for your touch like an addict, gotta have it  
Girl this thing feels so good, so I wish you would  
You're like static, static, static  
Girl you're like static, static, static  
Girl this thing feels so good, so I wish you would

Doin' 85 on a freeway, switchin' lanes in my Range  
GPS is saying next exit, I got your text message  
I'm on my way to you, here's what were gonna do  
And girl I tell you to, move in closer, don't stop  
Don't mess up the flow, don't be scared  
Touch right there, make it personal  
I don't really know what it is that you do  
It's like a force, I'm stuck onto you like static

You're like static  
The way you put it on me girl, it's like magic  
Got me feenin' for your touch like an addict, gotta have it  
Girl this thing feels so good, so I wish you would  
You're like static, static, static

Girl you're like static, static, static  
Girl this thing feels so good, so I wish you would
