

# Together

Frank Ocean

Oh we're in this together  
Have a little faith  
Oh you ought to know who you are  
Oh we're all children  
We're all human, we're all breathing  
We're all needing, more than, what their giving  
Can't you feel it?  
The space of what's missing

You look up and they tell you it's a godless sky, a godless sky  
So you look down  
Cause you've convinced yourself  
That this is all you've got, all you've got

But picture four billion hearts beating with you, with ours  
Picture four billion faces that high for love  
If there's one thing about this world I know  
It's that we're in it, together  
You're not alone, I'm not alone  
If there's one thing about this world I know  
We're together, we're together

I love you  
And I don't know you  
But I know the light in you  
Is the same as in me  
I trust you, like a brother  
Cause you could understand the pain  
Better than someone who's going through it

You look up and they tell you it's a godless sky, a godless sky  
But don't you look down  
Don't you convince yourself  
That this is all you've got, all you've got

Just picture four billion hearts beating with you, with ours  
Picture four billion faces that high for love  
If there's one thing about this world I know  
It's that we're in it, together  
You're not alone, I'm not alone  
If there's one thing about this world I know  
We're together

I've searched the souls of my people  
For something to believe in  
Oh not words that I could say  
But I heard them, I heard them

Just picture four billion hearts beating with you, with ours  
Picture four billion faces that high for love  
If there's one thing about this world I know  
It's that we're in it, together  
You're not alone, I'm not alone  
If there's one thing about this world I know  
We're together
