

## Letters To Earth

Frank the Baptist

This is not empathy  
this is not love you've known before  
this is not destiny  
this is not fate immovable

This is not empathy  
this is not love that you've been taught  
this is not destiny  
this is not fate immovable

In all the years you've known me  
my ship has never run a ground  
now shallow waters leave me low  
Letters fall to earth

This is not empathy  
this is not love that you've been taught  
this is not destiny  
It's not the fate that you had fought

In all the years you've known me  
my ship has never run a ground  
now shallow waters leave me low  
Letters fall to earth

[- - -]

Then when you came to me  
It was not love you had in mind  
that was not destiny  
that was not fate, we both were blind

Then when you came to me  
It was not love you had in mind  
that was not destiny  
that was not fate, we both were blind

In all the years you've known me  
my ship has never run a ground  
now shallow waters leave me low  
Letters fall to earth

This is not empathy  
this is not love that you've been taught  
this is not destiny  
this is not fate immovable

In all the years you've known me  
my ship has never run a ground  
now shallow waters leave me low  
Letters fall to earth
