

# Feel Like Us Again

Frank Walker

I just wanna feel like us  
I just wanna feel like us

We were so high up in the heavens  
Now we're hanging by a thread  
Are we falling out or forgetting  
How we were when we first met?

Used to breathe you out my lungs  
[?] under your skin  
Used to drive with eyes wide shut  
So we gonna sink or swim?

I just wanna feel, feel something  
With only [?]  
I just wanna feel, feel something  
I just wanna feel like us

Forever again, forever again  
I just wanna feel like us  
Forever again, forever again  
I just wanna feel like us

Do you remember when we were dancing  
Underneath the midnight sky?  
We were all fireworks and passion, oh  
Like we didn't need to try

Used to breathe you out my lungs  
[?] under your skin  
Used to drive with eyes wide shut  
So we gonna sink or swim?

I just wanna feel, feel something  
With only [?]  
I just wanna feel, feel something  
So give me all of you and more  
Trust my head, not my heart  
[?] tear us apart  
I'll tear us apart till the end

'Cause I just wanna feel, feel something  
I just wanna feel like us

Forever again, forever again  
I just wanna feel like us  
Forever again, forever again  
I just wanna feel like us  
Forever again, forever again  
I just wanna feel like us  
Forever again, forever again  
I just wanna feel like us

Forever again, forever again  
I just wanna feel, wanna feel something  
I just wanna feel, I just wanna feel like that  
I just wanna feel, wanna feel something

Feel like us

I just wanna feel like us

I just wanna feel like us
