

# Gravity

Frank Walker

I just wanna lose control in your gravity, in your gravity  
Show me how to let it go, in your clarity, in your clarity

We could leave the world behind  
Dance among the stars tonight  
I just wanna lose control in your gravity, in your gravity, yea  
h

In your gravity, in your gravity  
In your gravity, in your gravity

Been so messed up in my mind  
Building walls just a little too high  
Cold cold water drags me down  
Nothing scares me when you come around

Cuz you  
Yea you take all away  
When my hearts bout to break  
And you  
When I'm floating away  
You're my only escape

I just wanna lose control in your gravity, in your gravity  
Show me how to let it go, in your clarity, in your clarity

We could leave the world behind  
Dance among the stars tonight  
I just wanna lose control in your gravity, in your gravity, yea  
h

We could leave the world behind  
Dance among the stars tonight  
I just wanna lose control in your gravity, in your gravity, yea

In your gravity, in your gravity

I just wanna lose control in your gravity, in your gravity  
Show me how to let it go, in your clarity, in your clarity
