

# The Fall

Frank Walker

Tell me  
When you fall asleep  
Do you ever see  
The way we used to be, oh  
Before we hit the fall  
And when the lights go down  
Do you miss me now  
You can never live without me  
Before we hit the fall

When it's late at night do you think of me at all?  
Til the morning light 'cause we used to have it all  
It was you and I  
Always you and I  
Before we hit the fall

You and I  
You and I  
It was you and I  
Before we hit the fall

What's done is done  
We can't rewind it  
But for tonight, let's try to find our love again  
For one night again (mm mm)

I close my eyes. I hear you breathing  
And for tonight, I believe in love again  
Just for one night again (mm mm)

Tell me  
When you fall asleep  
Do you ever see  
The way we used to be  
Oh  
Before we hit the fall

And when the lights go down  
Do you miss me now  
You can never live without me  
Before we hit the fall

You and I  
You and I  
It was you and I  
Before we hit the fall

When it's late at night do you think of me at all?  
Til the morning light 'cause we used to have it all

It was you and I  
Always you and I  
Before we hit the fall
