

Star Wars Won't Work

Frank Zappa

Star Wars won't work
Star Wars won't work
Star Wars won't work
Star Wars won't work

Star Wars won't work
Star Wars won't work
The gas still gets through
It can get right on you
And what about those germs now
Star Wars won't work
It's a piece of shit
Why are they even talkin' about it anymore
It's just an expensive bunch of nothing
