

Summer Scene

Frankie Avalon

Let your heart fly just like a robin
Everything's comin' up green
Now's the time
To make the summer scene

Think about things
Like picknicks and swimming
Go have the time of your teens
Sand and sun her,
Make the summer seen

Love's on every beach
Every park bench in your reach
It's not hard to find
Especially about this time

Make the most of it
I know you'll love it
Try and see what I mean
Now's the time
To make the summer scene

Now's the time
To make the summer scene

Now's the time
To make the summer scene

Ah, love's on every beach
Every park bench in your reach
It's not hard to find
Especially about this time

Make the most of it
I know you'll love it
Try and you'll see what I mean
You will get more romance from her
Life will be a real thing hummer

Time for you to make,
Make the summer scene.
