UFO

Frankie Cosmos

I wish I could forgive myself for letting it happen
As fast as you forgave yourself for your actions

Selfish as you are cannot be undone
You wouldn't let me let myself become a person

Diamond in your throat
Is it in my dreams?
Maybe see you there
Facing away from me

I'm lying next to you in the strong grass
The car pushes by fast and the clouds are just gas

Everything I know
Picked up by a UFO
Maybe you too
Do I know you?

I want it so bad that I hate it so much
Are you for or against? Well maybe I'm both

Maybe I'm both
Maybe I'm both
