## Frankie Goes to Hollywood

Let's take it back  
Back to reality, the real world  
Oh, you, you, you and me together  
Not wondering why  
Let's take it back  
Back to the place I wanted  
Back when all we did felt it  
Oh back when we didn't try

Now don't you know that I think I know  
That when you left you decide you go  
When you come back I won't give more  
Cause I can't handle this again

Cause I decided that I can't be with you  
Cause when the lights went out  
I went and blacked out you  
And when it's over  
I'll know who's left to tell the truth  
When my visions gone  
No song can play reminding me of you

Let's take it back  
Back to just a camera flashing  
Oh when you hit me, capturing  
My soul as a real girl  
Oh let's take it back  
Back to two smiles reminiscing  
Oh back to two loves laying laughing  
Oh everything else came a blur

Now don't you know that I think I know  
That when you left you decide you go  
When you come back I won't give more  
Cause I can't handle this again

Cause I decided that I can't be with you  
Cause when the lights went out  
I went and blacked out you  
And when it's over  
I'll know who's left to tell the truth  
When my visions gone  
No song can play reminding me of you

Or maybe he's a crude boy  
Maybe he's a perv boy  
Maybe he's a lover hiding under covers  
Maybe he's just, just figuring it out  
Or maybe he's a child  
Maybe he's a soldier  
All I really know is he's got me on his finger  
But baby I need to get out

Cause I decided that I can't be with you  
Cause when the lights went out  
I went and blacked out you  
And when it's over

I'll know who's left to tell the truth  
When my visions gone  
No song can play reminding me of you
