

## Lunar Bay

Frankie Goes to Hollywood

Walk right through my soul, keep out the cold  
And make me lose control, fill me with love  
My mind is blazing and we're escaping the real world  
Swing and sway on Lunar Bay, yeah, on Lunar Bay, yeah

Touch my very soul makes me lose control  
My dreams unfold, you fill me with love

Feel me walking in the sun  
Hear me talking to the moon  
I won't change for anyone  
I'm just for you, hey yeah

I touch my very soul, it makes me lose control  
My dreams unfold, you fill me with love  
The train of faces are going places, get on board  
Swing and sway on Lunar Bay, yeah, on Lunar Bay, yeah

Swing and sway, swing and sway

Feel me walking in the sun  
Hear me talking to the moon  
I won't change for anyone  
I'm just for you

When the wind rushes in to herald the king  
Just stay in my heart forever more

Feel me walking in the sun  
I won't change for anyone  
When the wind rushes in to herald the king  
Just stay in my heart forever more

In the sun, I won't change for anyone

In the common age of automation  
Where people might eventually work ten or twenty hours a week  
Man, for the first time will be forced to confront himself  
With the true spiritual problems of living
