There's this girl I saw  
She's about 5'6, no doubt she's sexy, yeah  
She just stepped up in the club  
Right across the way from me  
Shorty got me checking for her

I don't know a thing about this girl, this girl  
But I know she's something serious, yeah, huh  
Don't want to push up on her too fast  
But I gotta have her yeah, yo  
And then I said

Can I get your number please  
Would you spend time with me  
Girl I saw you when you caught my eye  
And I really want to know ya  
Saw you when you first stepped in  
And then I knew right there and then  
Baby it's the way you make me feel  
I'm your number one fan

Now I done seen a lot of things  
But I never seen a girl so perfect for me  
So it's time for me to do the do  
Tell her what she does to me  
Feeling so much pressure  
But I gotta make my move oh,

I don't know a thing about this girl, this girl  
But I know she's something serious, yeah, huh  
Don't want to push up on her too fast  
But I gotta have her yeah, yo  
So I had to say

Can I get your number please  
Would you spend time with me  
Girl I saw you when you caught my eye  
And I really want to know ya  
Saw you when you first stepped in  
And then I knew right there and then  
Baby it's the way you make me feel  
I'm your number one fan

She's like my favorite thing  
Nothing I've ever seen  
She's like them girls in the magazines  
If she'd take a chance with me  
I'd give her everything yeah  
I'm telling you that she is the one, for me  
Whoa

Can I get your number please  
Would you spend time with me  
Girl I saw you when you caught my eye  
And I really want to know ya  
Saw you when you first stepped in  
And then I knew right there and then

Baby it's the way you make me feel  
I'm your number one fan
