

## Make the Music Play

Frankie Valli

I count the days since you're away  
I have been known you girl for such a long long time  
And all the love we knew is running through my mind  
Come back and make the music play

Come back and make the music play  
Trumpets will play the way they did when you were there  
And our sweet song of love will echo in the air  
Come back and make the music play

Each night I hear you in my dreams  
A violin within a sea of green  
Begins to spin a memory  
Life revolves about you  
I can't go on without you

And if tomorrow morning comes  
I wanna wake up with you lying by my side  
I wanna taste your kiss and know that you are mine  
Come back and make the music play  
Make the music play  
Oh, let it play  
Let it play
