

Watch Where You Walk

Frankie Valli

Watch where you walk
The road of life is marked where to walk
Your heart tells you to stop, and to go, or take it slow
In all you do, be true to you

Oh baby, watch where you walk
Your cup is full of love when you walk
Go always with your head held up high
Let your heart fly
But on the way, don't ever stray
Keep looking through
The dark of night
You wait for that guiding light
To shine on love

Then when you walk
Together never too far to walk
'Cause two can do it, better than one
The climb is fun
You're in your own, sweet welcome home
Watch where you walk
Watch where you walk
