

# Ephemeral Summer

Frankmusik

She's my experience  
I couldn't resist  
I ended up with more questions  
Than I started with  
She took me to places  
That I'd never seen  
Then took them away again  
Now they're just a dream  
And I'd be her rebound if  
If she'd be my love  
I gave into quickly  
Cos I was never enough  
I saw she was rising  
But it wasn't for us  
And now that I'm falling  
I can't see where i was  
I'm thinking of England  
Now I think of your smile  
And I think how I broke you  
In my typical style

Ephemeral summer  
I'll miss you the most  
Ephemeral summer  
Now I'll walk alone  
Ephemeral summer  
Too close to the sun  
There won't be another  
I thought you were the one

Invisible summer  
But where did you go  
I know its getting better  
But times moving slow  
And so I'll wait for the winter  
I'll wait till the end  
Ephemeral summer  
Such a short time you spent  
I won't hold onto memories  
Forget what I saw  
Girl I'll still remember  
When you walked through that door

Now the skies burning orange  
Leaves fall to the floor  
Now I think I'll go join them  
Cos I can't take anymore  
Ephemeral summer  
I'll miss you the most  
My ephemeral summer  
Now I'll walk alone
