Frankmusik

I'm as good as dead
Many monsters rule my head
But you gave them strength
Even though it's hard as hell I know that

You're the only one that can
Change my world from weathering
Arm me with those things I need
And do it with a smile

The night I met you, [?] difference
And I won't put up anymore resistance
'Cause I love you for what you give in
Girl now that I know, you're the thing I'm missing
You're the thing I'm missing

You're the thing I'm missing

Guess I [?] too long vibing on my own
Get every question you have answered
All this doubt that was in my mind
You set it in a second round in front of my eyes

'Cause you're the air, when I cannot breathe
You're like the river from my stream
And challenges ain't a job to you
It doesn't really matter what they do

The night I met you, [?] difference
And I won't put up anymore resistance
'Cause I love you for what you give in
Girl now that I know, you're the thing I'm missing
You're the thing I'm missing

You're the thing I'm missing

You're the thing I'm missing

You're the thing I'm missing
