Yeah, I could love, I could love
About most anything but myself, but myself
And I've had enough, had enough
About most everything, what the hell, what the hell

Wanna be my partner in crime
We can kill some time
You can be my ride or die
Whether it's rain or shine
It could be just for a second or eternity
As long as you do, as long as you do it with me, yeah

'Cos I'd be through
N E X T if you weren't right next to me
Yeah, I'd be through
N E X T if you weren't right next to me

I hold my breath, hold my breath
And try to count to ten
And start again, start again
'Cos every minute of every day
I know that it can
Be better spent, better spent, yeah

I only ever compromise
Watch my life flash by
Like I'm strapped into my chair
By my derriere
It could be just for a second or eternity
As long as you do, as long as you do it with me, yeah

'Cos I'd be through
N E X T if you weren't right next to me
Yeah, I'd be through
N E X T if you weren't right next to me

And I need you N E X N E X N E X to me
And I need you N E X N E X N E X to me
Yeah, I need you N E X N E X N E X to me
I need you N E X to me

N E X to me
N E X to me
N E X to me

Yeah, I'd be through...
Yeah, I'd be through...

And I need you N E X N E X N E X to me
And I need you N E X N E X N E X to me
Yeah, I need you N E X N E X N E X to me
I need you N E X to me

Yeah, I'd be through
N E X T if you weren't right next to me
Yeah, I'd be through
N E X T if you weren't right next to me

Yeah, I'd be through
N E X T if you weren't right next to me
Hey yeah, yeah, I'd be through
N E X T if you weren't right next to me
I'd be through
N E X T if you weren't right next to me
You know I'd be through
