

## On A Wave

Frans

For the long time run  
I'll be riding all the way  
On a wave with you

Ah  
For the long time run  
I'll be riding all the way on a wave with you  
And the long time gone  
Was a stop in the journey made for two  
For the long time run  
I'll be riding all the way on a wave with you  
With you (bah), yeah (ah)

For all the things I've lost  
I will put it on the shelf in the aisle three  
Everything you see  
Was always meant for you and me  
For the long time run  
I'll be riding all the way on a wave with you (woo)  
(With you) (woo) with you

And someone better make you sad  
'Cause I have got a real good shoulder, and  
Let's share a glass of wine  
And I will make it fine for you  
If someone ever made you sad  
Then I am gonna make it better, yeah  
This is all I know  
Don't mind the bumpy road with you, yeah

For the long time run  
I'll be riding all the way on a wave with you  
And the long time gone  
Was a stop in the journey made for two  
For the long time run  
I'll be riding all the way on a wave with you  
With you, yeah

For all the things I've lost  
I will put it on the shelf in the aisle three  
Everything you see  
Was always meant for you and me  
For the long time run  
I'll be riding all the way on a wave with you  
With you

And someone better make you sad  
'Cause I have got a real good shoulder, and  
Let's share a glass of wine  
And I will make it fine for you  
If someone ever made you sad  
Then I am gonna make it better, yeah  
This is all I know  
Don't mind the bumpy road with you, yeah

This all makes sense  
Sometimes so tense

Tell me I am  
Something better, are we better now?  
We make no sense  
And I want no end  
But tell me I am  
Something better, are we better now?

For the long time run  
I'll be riding all the way on a wave with you  
And the long time gone  
Was a stop in the journey made for two  
For the long time run  
I'll be riding all the way on a wave with you  
With you, yeah
