

Young Like Us

Frans

Let's go
You may not see the consequences of your actions
And never think twice
Always thin ice
Make a statement, show yourself, show your attractions
Nah
Wouldn't that be nice?
My feet getting lighter
As the moon's getting brighter
Watching the stars fade away
To fulfill our desire
We go further and higher
To get what we want
Oh

Did I mention you're pretty?
Let's get out of the city
'Cause ya gotta feel it
The night is young, young like us
Young like us
Let this night not be wasted
Tryin' somethin' never tasted
'Cause you gotta feel it
The night is young, young like us
Young like us

Never think about tomorrow, got no sorrows
We'll be fine, let's waste our time
Livin' in the golden age, make no mistake 'cause
When hearts align your is next to mine
My feet getting lighter
As the moon's getting brighter
Watching the stars fade away
To fulfill our desire
We go further and higher
To get what we want

Did I mention you're pretty?
Let's get out of the city
'Cause ya gotta feel it
The night is young, young like us
Young like us
Let this night not be wasted
Tryin' somethin' never tasted
'Cause ya gotta feel it
The night is young, young like us
Young like us
(Young like us, young like us)
'Cause ya gotta feel it
The night is young, young like us
Young like us
(Young like us, young like us)

Watchin' the stars
(Young like us)
Fade away
(Young like us)

To get what we want
Oh
Nah, did I mention you're pretty?
(Young like us)
Ya gotta feel it, the night is young
Young like us
Young like us
(Young like us)
Young like us
