

## Bar Lonely

Franz Ferdinand

It's hard to get out  
Hard to get out when it's so dark  
It's hard to look out  
It's uncertain but the curtain won't draw itself

Where can you go where no one knows your name  
No-one's glad that you came

Bar Lonely is so close  
It's on the corner at the Golden Gai  
You know the owner and he knows  
Which shot is the usual for you  
The memories he will remove from you  
He'll be taking everything you can lose  
By the end of the night

She has to be out  
She has to be out until the end  
She has to stay out  
She's uncertain but the curtain might draw itself  
Where can she go where no one knows your name  
No-one's glad that you came

Life is never going to be easy  
But if you're living it with me  
We're going to live it up night or day  
Well I want to live a life with you  
No life is you  
And I want it night or day  
I look forward to night or day, oh my

You're alone and everybody here is alone  
Just like you  
And you know that they'll be singin with you  
By the end of the night  
There'll never be an end to the night

It's hard to come home  
It's hard to come home when it's so dark  
Hard to come home  
It's uncertain but the curtain fell when you were away
