

# Cats

Franz Ferdinand

You love no one  
And everyone  
At the same time  
They can put a lead on you  
But they'll never learn  
They can never turn  
Cat into dog

Been keeping it tame for so long  
Come on let it go wild  
Can't keep a creature like this  
You've got to go and get it untied  
Just because the world can't see  
Doesn't mean it's not living inside  
Not living but waiting until  
You're going to take it outside

Now take it outside  
Get back on the outside

Well the city shines in a mean particular way tonight  
Wet tarmac flicking the light back  
Signs sinking in a deep dead pool  
How good does the world out feel I've been  
Sick of living inside  
Not living but waiting until  
You're going to take it outside

Now take it outside  
Get back on the outside

We love everyone  
We love no one  
Oh no but they'll never learn  
They can try to put a lead on  
But they'll never turn a cat into a dog

Now take it outside  
Get back on the outside
