

Curious

Franz Ferdinand

Meet cute on the first page
Tension enter left on a dark stage
Our stars collide
Light destroy the night

Am I thinking about now?
Am I thinking about then?
Am I thinking about you or me?
And when we are the future
I'm curious, curious
Will you want me?

Will you want me when you've got me?
Are you gonna love me?
Tell me, I'm a future seeker
Heat-seeking freak
I want to know now
I've got to know now
No I know that no
I shouldn't be so curious
But hell you've got me curious
Because I might love you

With mystery dissipating
Is it ordinary remaining?
Discovery is discovered
And you know what I will say when
Say when

When the question is asked
When the question remains
Repetition, repetition
Revealing the day
Are we the future?
I'm curious, curious
Will you want me?

Will you want me when you've got me?
Are you gonna love me?
Tell me, I'm a future seeker
Heat-seeking freak
I want to know now
I've got to know now
No I know that no
I shouldn't be so curious
But hell you've got me curious

Will you love me now?
Will you love me then?
Will you love me when you see
You see the man within?
Can you love the man within?
Will you hold me when you've got me?
Are you gonna love me? Tell me
Yes, I'm a future seeker
A heat-seeking freak
You know, you know, you've got me curious

Curious, you've got me curious
