

## Don't Start

Franz Ferdinand

There's only wind and dust to follow  
Your footsteps on the run  
You know me, know when I'm without you  
I swear my heart burns in the sun

Baby, don't start walking away  
Stop walking away  
Start coming around and around again

I see you in your glasses clearly  
Your shades are blinding me, I say  
I miss you most when you are with me  
I miss your missing me each day

Baby, don't start walking away  
Stop walking away  
Start coming around and around again
