

# I Like You Better

Frazey Ford

I like you better, ohh  
I like you better, ohh

Well, shyness gets the best of me, ohh  
A light comes down on me  
I wanted to hold you  
Forever, forever, forever  
Forever, forever, forever

Anyway that you hold it  
Goddamn, gotta roll with it, roll with it  
And the world gets open  
Like you done  
Like you done  
Like you done

I can't think no more, I can't think  
I can't use my brain, I can't think no more  
I can't think no more, I can't think  
I can't use my brain

I like you better, ahh  
I like you better, whoa

Well, shyness gets the best of me, ohh  
A light comes down on me  
And I wanted to hold you  
Forever, forever, forever  
Forever, forever, forever

Anyway that you hold it  
Goddamn, gotta roll with it, roll with it  
And the world gets open  
Like you done  
Like you done  
Like you done

I can't think no more, I can't think  
I can't use my brain, I can't think no more  
I can't think no more, I can't think  
I can't use my brain

I can't think no more, I can't think  
I can't use my brain  
I can't think no more, I can't think  
I can't use my brain

I like you better, ohh  
I like you better, ohh  
I like you better, ohh
