

Let's Start Again

Frazeyp Ford

Let's start again, like we did when
Like we did when

You know I worried, worried, hesitated
But one by one these years keep coming through
And you were always there to catch me
Spinning your records
Holdin' me the way that you do, that you do
And all excuses sound so useless
Two am in a Paris hotel room

Tryna be so tough, but you really know me
Breakin' down my walls
And you all around me

Let's start again, like we did when
Like we did when

You know it's five am on another flight somewhere
But nothing feels as good
As doing almost nothing with you
And oh your kindness was my weakness
Bringing me coffee, staring out at the view
From the Beau Chamont, fine restaurant
And all you ever wanted was for me to show 'em you were my girl

Tryna be so tough, but you really know me
Breakin' down my walls, and you all around me
Tryna be so tough, but you really know me
You're a resting place, and you're all around me
