

# Lost Together

Fraze Ford

Oh, were we lost together  
You know we were  
Side by side losing everything

From the garden in your head  
I would like to get some rest  
So the kids no longer have to see us fighting

Oh, the funny thing is  
What I thought that this was for  
Making love and making more  
Beautiful babies

I never thought that I'd look back and see  
What I didn't have to give  
And just what they didn't get  
Those beautiful babies

Oh, were we lost together  
You know we were  
Side by side losing everything

We were just. a pair of kids  
Oh, the stupid things we did  
In the madness they were calling  
The revolution

Oh, the funny thing is  
What I thought that this was for  
Making love and making more  
Beautiful babies

I never thought that I'd look back and find  
How we left them at the door  
With their eyes so full of war  
That was our family
