

backseat

Fred again..

This isn't helping
This isn't-
This isn't helping
This isn't-
This isn't helping
(This isn't helping)

Sitting in the back seat
Driving with my sunshine baby
Well, I've gone a little crazy
Well, I've gone a little crazy
In the back seat
Driving with my sunshine baby
Well, I've gone a little crazy
Surely someone's gonna save me now
Back seat
Driving with my sunshine baby
Well, I've gone a little crazy
Well, I've-
In the back seat
Driving with my sunshine baby
Well, I've gone a little crazy
Surely someone's gonna save me now

This isn't helping
This isn't helping

Sitting in the back seat
Driving with my sunshine baby
Well, I've gone a little crazy
Well, I've gone a little crazy
In the back seat
Driving with my sunshine baby
Well, I've gone a little crazy
Surely someone's gonna save me now

This isn't helping
This isn't helping

In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
Hold on to this feeling 'cause you won't feel it for long
I wanna be a part of it, I wanna sing along

In the back seat
(In the back seat)

In the back seat
Driving with my sunshine baby
Well, I've gone a little crazy
Well, I've gone a little crazy
In the back seat
Driving with my sunshine baby

Well, I've gone a little crazy
Surely someone's gonna save me now

In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does (Ooh, that's right)
In the end it always does, in the end it always does
In the end it always does, in the end it always does

Been a while since I heard my own voice
I wanna be a part of it, I wanna sing along
The feeling when the windscreen wipers line up with the song

Sitting in the back seat
Driving with my sunshine baby
Well, I've gone a little crazy
Surely
Sitting in the back seat
Driving with my sunshine baby
Well, I've gone a little crazy
Surely (I don't know what's right anymore)

In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
In the end it always does, in the end it always does
Putting off the end, 'cause in the end it always does
In the end it always does, in the end it always does
Putting off the end
