

## Catrin (The City)

Fred again..

Fell in love with the city  
As I fell out of love with you

Fell in love with the city  
As I fell out of love with you  
Fell in love with the city  
As I fell out of love with you

Fell in love with the city  
As I fell out of love with you  
Fell in love with the city  
As I fell out of love with you

Walking out in the rain again  
'Cause I wanted to  
There's white light on my face again  
And I feel it too  
Running up to the third floor  
Some people, you need more  
Walking out in the rain again  
'Cause I wanted to

I was there, I didn't dip  
I was, like, real life writer  
Like, you know when bad shit went down? I didn't go nowhere  
I was there

Fell in love with the city  
Fell in love with the city  
But I've done my life without you  
But I've done my life without you

Fell in love with the city  
As I fell out of love with you  
I fell in love with the city  
As I fell out of love with you
