

Come On Home

Fred again..

Even I leave without my half light

Little lights in this conversation

Don't mind me

I think you're being [?]

You never know how far from home you're feeling

Until you watch the shadows cross the ceiling

Never though you could take it slowly

I don't know how I got so lonely

Come on home

Come on home

You don't have to

Be alone

Come on home

One life to lead my G

One life to lead like

Don't worry don't worry

Be like "What are they gonna say?"

This little work like so fucking [?]

Be your life, Fred yes Queen

Never though you could take it slowly

I don't know how I got so lonely

Come on home

Come on home

You don't have to

Be alone

Come on home

Come on home

You don't have to

Be alone
