

## fear less

Fred again..

Ah-ha, I fear less with you  
I fear less with you on the passenger side  
Ah-ha, I fear less with  
I fear less with you on the passenger side  
Ah-ha, I fear less with you  
I fear less with you on the passenger side  
Ah-ha, I fear less with you  
I fear less with you on the passenger side (Side by side, side  
by side)

We were stuck on traffic on the closing night  
Overtime, overtime, overtime  
I was lost for words, you were praying, right?  
Make it right, make it right, make it right  
My arm would start to shake out of the side of mine  
Late at night, late at night, late at night  
You helped me see it all in a different light  
Hold me right, hold me right, hold me right

Ah-ha, I fear less with you  
I fear less with you on the passenger side  
Ah-ha, I fear less with  
I fear less with you on the passenger side  
Ah-ha, I fear less with you  
I fear less with you on the passenger side (Side by side, side  
by side)

We were stuck on traffic on the closing night  
Overtime, overtime, overtime  
I was lost for words, you were praying, right?  
Make it right, make it right, make it right  
My arm would start to shake, I was thinking 'bout you  
Late at night, late at night, late at night  
You made me see it all in a different light  
Hold me right, hold me right, hold me right

Ah-ha, I fear less with you  
I fear less with you on the passenger side
