

## Judge Me (Interlude)

Fred again..

Don't judge me  
Don't judge me  
I know that shit felt great  
I was broke and I loved myself  
Nobody even loved me (Step)  
Don't judge me  
Don't judge me  
I know that shit felt great  
I was broke and I loved myself  
Loved me

Don't judge me, take care of me  
Don't judge me, take care of my heart  
Don't judge me, be there for me  
Don't judge me, just hold me in your arms  
Don't judge me, take care of me (Hold in me yours, say we'll make it through)  
Hold me in your arms (All the precious love I have for you)  
Don't judge me, be there for me (Save for the lovin' far apart)  
Hold me in your arms (Shit, man, I thought we could make it home)  
)

She thought that I was done with this (Don't judge me, say that I thought we could make it through)  
She thought that I was done with this (Don't judge me, save me, breakin' for you every day)  
Don't judge me (All the precious love I have your way)  
Don't judge me
