

## Kahan (Last Year)

Fred again..

It's all love  
Love  
Heh, love is free

I was out my mind last year, ayy  
Wonderin' where my mind had went, ayy  
When I can't believe I really let the  
Can't believe I really let the drugs get between us

I was out of my mind last year  
Wonderin' where my life half went  
It was every night  
It was evenings all fired up  
Sleepin' on the floor and stops  
It was every night  
Stay up, breathe in, breathe out  
He learns to wear you down  
I'm still tryna work it out, my God

I was out my mind last year  
It was every night last year  
You were in my life last year  
You were in my life last year

I was out my mind last year, ayy  
Wonderin' where my mind had went, ayy  
When I can't believe I really let the  
Can't believe I really let the drugs get between us

I was there  
It's just hard to heal a wound when you're in it  
There's gonna be someone out there that's gonna see the beauty in me that yo  
u don't see

So hold on, breathe in, breathe out  
You learned to live without  
And no, I can't change it now  
Goodnight

I was out my mind last year  
It was every night last year  
You were in my life last year  
You were in my life last year

I was out my mind last year, ayy  
Wonderin' where my mind had went, ayy  
When I can't believe I really let the  
Can't believe I really let the  
Can't believe I really let the  
When I can't believe I really let the  
Can't believe I really let the  
Can't believe I really let the drugs get between us

It was every half mornin'  
That I put my heart all in  
You were in my life last year  
You were in my life
