

Lydia (Please Make It Better)

Fred again..

To a place that's only ours
I will rest my head on your shoulder for hours
Please make it better
Please make it better
Please make it better

Please don't put her to sleep
If I can't be there to see
Just put all her pain on me
Hmm
She's rarer than you would believe
Use every drug you need
Just please bring her back to me
Please make it better (Hmm)

Please make it better
I leave it up to you

And all I can't wait to see
Is you there in front of me
You'll be dancin' in revelry
You told me you've been thinkin' lots
The one thought that had changed your soul, mmm
I couldn't stop smilin' like the whole way home

Please don't change my mind, mind, mind
Please make it better
One week 'til you're goin' home
My darlin', look at how we've grown
I learnt to love you through the phone (You're amazing)
Let's take off to a whole new life
From now on, you're by my side
Please make it better
Please make it better

You're everything to me
Everything is for you
You are to me everything
