

## peace u need

Fred again..

My head, my heart, my loss, my mind  
Still calls your name these quiet nights ('Cause si-, 'cause silence  
keeps clouding)  
It keeps coming, it keeps coming up  
Keeps coming more and more  
I still call your name these quiet nights

Ooh, I let you take the piece of me (Piece of mine, piece of mine)  
I hope you get the peace you need (And I, and I)

I let you take the piece of me (Piece of mine, piece of mine)  
I hope you get the peace you need (Peace you need, peace you need)

My face, my hands, my joy, my life  
I'm running up your stairs, I'm lost this time (Si-, silence keeps cl  
ouding)  
It keeps coming, keeps coming up  
Silence keeps coming, alright  
I'm scared to lose my central light (And I, and I)

I let you take a piece of me  
I hope you get the peace you need  
I let you take a piece of me  
I hope you get the peace you need (Si-, silence keeps clouding)

I let you take a piece of me  
And I hope you get the peace you need  
I let you take a piece of me  
I hope you get the peace you need  
(Piece of mine, piece of mine, piece of mine, piece of mine)  
(Piece of mine, piece of mine, piece of mine, piece of mine)  
I let you take a piece of me  
I hope you get the peace you need  
I let you take a piece of me  
I hope you get the peace you need  
I let you take a piece of me  
I hope you get the peace you need (Silence keeps clouding, silence ke  
eps)

Silence keeps clouding, silence keeps clouding  
Silence keeps clouding, silence keeps clouding  
Silence keeps clouding (Piece of mine)  
(Piece of mine, piece of mine, piece of mine)

(Piece of mine, piece of mine, piece of mine, piece of mine)  
(Piece of mine, piece of mine, piece of mine, piece of mine)  
(Piece of mine, piece of mine, piece of mine, piece of mine)  
(Piece of mine, piece of mine, piece of mine, piece of mine)
