

Sorry You Left Me

Fred Eaglesmith

Oh, I saw you last night
You had someone by your side
And he looked as happy as could be
And the only thing that flashed across my worried mind
Is, "You're gonna be sorry you left me..."

You're gonna be sorry that you left me darlin'
You're gonna be sorry you left me
You lie awake at night with those tears in your eyes
You're gonna be sorry you left me!
Oh, I guess that you think that you done the right thing
When you went and you set me free
But you're gonna see you were wrong darlin'
You're gonna be sorry you left me!

You're gonna be sorry that you left me darlin'

You're gonna be sorry you left me
You lie awake at night with those tears in your eyes
You're gonna be sorry you left me!

Oh, the sky won't be blue
And the stars will not shine
And the birds will not sing in the trees
The nights will grow cold
And you're just grow old
You're gonna be sorry you left me

You're gonna be sorry that you left me darlin'
You're gonna be sorry you left me
You lie awake at night with those tears in your eyes
You're gonna be sorry you left me!
You lie awake at night with those tears in your eyes
You're gonna be sorry you left me!
