Unconditional

Fred Hammond

There is a love that's so complete,
When I came around it, it knocked me off of my feet

This love I found is certified,
it healed my body and ceased my troubled mind

The love of Jesus, say, what the song's about
When it dwells within, it'll make you scream and shout
I'm so glad that I have found
A love like this could turn my life around

Unconditional, Your love is truly unconditional
And I've found it to be
Unconditional and I will let the world know

I wanna thank you for the love You've shown
I'm not selfish to think the joy is gone
Truly gave all that you had to give
You lived and gave up Your life that I could live

Here's one more thing that I need to let You know,
Since I found You, I let the others go
No one can tell the world how to be free
Show the love that You gave to me!

There is not enough world that I could ever say about You
Come on say, Hey! Take it up! Say heh!
But two words come to mind and they come without a catch
And all this showed to me is that I must take the test

Unconditional Love!

The love that I found! He died for me! He did it to set me free
! Come on! Come on say hey!
So glad that I got it!
