

# Come Around My Way

Freddie Gibbs

(2x)

You think you know but you ain't got no clue  
What the street life will make you do  
Follow me lemme show you how we grind, how we stack our pay  
Fuck Tomorrow cause we livin' for today  
Come around my way

I'm tired of dealin' with this constant stress  
The only thing guaranteed to a nigga is death  
So we run the risk of gettin' arrested  
But it's hard gettin' money in my hood cause the block congested  
Niggas gettin' me to pull out the vests  
If you scared of gettin tested  
Homie this isn't something you shouldn't mess with  
I saw some fatal images when I was eleven  
That's when my uncle got addicted to the shit he was sellin'  
And I just took it as a lesson and learned from his mistakes  
I'm a keep my faith in god til I catch my break  
They say my momma's first born turned out to be a thug nigga  
A bad example for my brother and my little sister  
I could do better and I knew that shit  
I had a couple opportunities I blew that shit  
But being lord of the streets will make you do that shit  
You get a job go to school and shit  
I'd rather move that brick

Fuck Tomorrow cause we livin' for today  
Come around my way

Come and take a lil' trip to my hood  
And see that everything ain't all good  
If I could turn around my life I would  
This is owned by the arabs and asians  
In the city it's 90 percent black  
The mayor is caucasian  
I ain't prejudice I just tell it how it is  
This is one of the worst places you can raise yo kids  
Cause instead of buildin' more schools they buildin' more prisons  
Our tax dollars is feeding all these greedy politicians  
They sittin'; up gettin'; fat while we starve in the hood  
The unemployment rate is bonkers ain't no job in the hood  
If you ain; t working a job then you movin' some work  
Stickin'; these needles, pimpin'; these bitches, or doin' some dirt  
It's amazing what motherfuckers will do for the murk  
You get to comfortable your whole crew will get murked  
You got your ticket out the hood I suggest you get up on it  
And pray for the future but we livin'; for the moment  
Whatever's necessary I'm a do it til they drop my body in the cemetery  
Welcome to Scary Gary nikka
